## SUMMARY

Full-stack developer specializing in Flutter and NestJS, with expertise in both front-end and back-end development. I build seamless, high-performance web and mobile applications, combining clean architecture with modern design principles to deliver innovative, scalable, and user-focused solutions.

## PROJECT EXPERIENCE AND INTERNSHIP HIGHLIGHTS

### Hajemli Mobile Application

01/01/2025 - 30/09/2025

- Hajemli is a mobile application developed with Flutter and NestJS that connects barbers, clients, and shop owners. It allows users to easily make reservations, discover available barbershops, and manage appointments without the hassle of traditional scheduling. Hajemli also serves as a professional network for barbers to share experiences, improve skills, and even find job opportunities or hire new talent – all in one place.

### Job Board Application (Seeker <-> Employer contact)

15/07/2025 - 31/08/2025

- Developed core job board features: job posting, search & filtering, profile management for seekers and employers, and an in-app messaging/contact-request system to facilitate direct communication.  
-> developed with Flutter and NestJS

### CRM for tunisie telecom EDC , Front End

02/06/2025 - 03/07/2025

A CRM system designed for efficient stock and contracts management, streamlining inventory tracking, contract creation, and client interactions to optimize business operations.

### Mobile and web Leave Management Application

01/07/2024 - 31/08/2024

- Developed during an engineering internship, this leave management system uses Flutter, React, and Nest.js to simplify leave requests. It offers secure, personalized access for employees and efficient web tools for HR, replacing manual processes with a streamlined, user-friendly platform.
  - You can find more details at: <https://laajili-oussama.web.app>

## EDUCATION

### Student in Software Engineering

Sep 2021 - present

- Higher Institute of Computer Science and Mathematics, Monastir

### Baccalaureate with high honors , average: 16.30

2021

## ADDITIONAL INFORMATION

- Technical Skills:** React, React Native, Flutter, Android Studio, Nest Js, Spring Boot, AWS Cloud, Docker, Firebase ect...
- Languages:** English, French, and Arabic
- Extracurricular Involvement & Achievements:** I am actively involved in associations such as Arsii and Tunivision, where I contribute to community initiatives and foster meaningful connections. I've participated in several national and international tech competitions, including Twise Night Challenge 2025, Nuit de l'Info 2025, and IEEE Xtreme 2024.
- In addition, I was honored with the Second Prize at the IT Impact Hackathon (First Edition) held at ISIMM, recognizing our innovative tech solutions and teamwork.
- Beyond the tech world, I'm proud to have been crowned Champion of Tunisia in shot put,

showcasing my dedication and discipline not only in technology but also in athletics.
